# SMART TOOLS.

Smart**Move**

SmartMove from WyldLynx is a stand-alone product that enables users to bulk migrate files directly into Content Manager.

If you haven't moved large numbers of files into the secure management that Content Manager provides because it takes too long, SmartMove is your answer!

WyldLynx
Linking Business & Technology

Features and Functionality

✓ Migrates files in bulk from a local or shared Drive directly into Content Manager

✓ Migrate a single file or multiple at once

✓ Multiple configuration options

✓ Applies file metadata on import

✓ Stand-alone application

✓ Simple to use for all users

" We had so many files just sitting on our network, simply because no-one had time to put each of them into Content Manager one-by-one. SmartMove let us quickly move them over in bulk, and now our staff has the time to get on with their day-to-day business tasks. "

User Feedback

Using SmartMove

If you can see the files from your computer, locally or on a shared drive, you can quickly and easily move those files into Content Manager.

Choose a template, select the files, set the options and start the import. That's it!

Now your files are secure, searchable and can be managed from within Content Manager.

Requirements:
- Microsoft Windows 7, 8 or 10
- Content Manager 9.1+
