

# Online Training Portal

With the number of applications and systems that users need to use in the modern workplace, adequate training is more important than ever.

Instead of sending staff away to do a course that they will often forget when they get back anyway, why not give them access at their fingertips to exactly what they need to know, when they need it?

## Online Training Portal Features

- ✓ Online catalogue including video guides, user manuals and tailored 'quick guides'
- ✓ Scalable, subscription-based service for 1 single user or up to 10,000 users
- ✓ Accessible from any internet-connected device, at any time
- ✓ Frequent updates to material
- ✓ Custom branding available

*“ I've learned a lot of new things by using the portal, but it's also been great for whenever I forget something simple too. ”*

User Feedback

### CUSTOM BRANDING THE INTERFACE

WyldLynx has designed the Online Training Portal to allow personalisation to suit any organisations look and feel, allowing seamless integration into your organisations ecosystem.

Giving constant access to quality training to any users with an internet connection can bring great productivity benefits to your organisation.
