

SmartZIP

The WyldLynx SmartZIP add-in enables users to easily convert Content Manager documents to a zip file with the click of a button.

WyldLynx

Linking Business & Technology

Features and Functionality

- ✓ Easily create zip files in Content Manager
- ✓ Group multiple documents from different areas within CM into one zip file
- ✓ Access directly from within the Content Manager interface - no external apps required
- ✓ Automatically create an export list to know who exported which documents and when

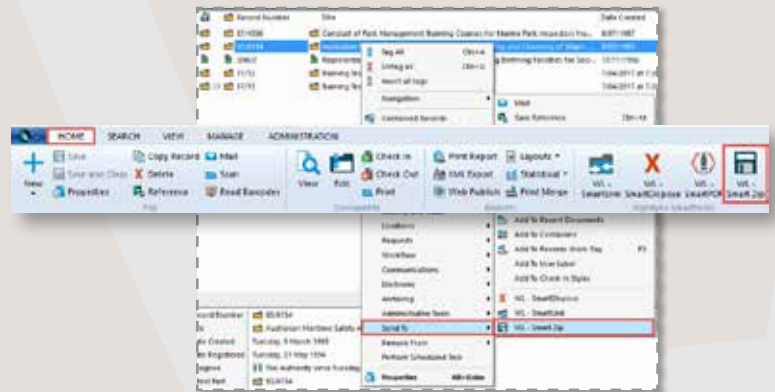

“ I have found myself using SmartZIP way more than I thought I would. It's really simple to use, even for me! ”

User Feedback

Using SmartZIP

Combining multiple documents into a single Zip file from within Content Manager is as simple as selecting the files and clicking a button. It's that easy!

There really are no more steps than that. See for yourself!

Requirements:

- Microsoft Windows 7, 8 or 10
- Microsoft .Net Framework 4.5+
- Content Manager 8.3+
